

mknix::Point::shapeFunSolve

```
graph LR; A[mknix::Point::shapeFunSolve] --> B[mknix::ShapeFunction::calc]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'mknix::Point::shapeFunSolve'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'mknix::ShapeFunction' on the top line and '::calc' on the bottom line.

mknix::ShapeFunction
::calc
